Ms. Morris,

I've decided to file a qui tam action in your agency's behalf down here in Western Texas against PHH Mortgage, who runs a very similar operation to Ocwen. In fact I've already filed Monday. Judge Yeakel is on the bench, with Mark Lane helping get stuff sorted out. I know from browsing through your report that y'all are quite busy with higher priorities at the moment. I have standing down here in Texas due to their wrongful seizure on my own property, and appear to be First Relator. I also had an earlier CFPB complaint in the system out in Iowa.

Your team apparently were phenomenally successful last year in working out a consent judgment with the Ocwen company and all 50 State AGs last year. I imagine you spent quite a long time in investigation and negotiation for everyone to reach an agreement and put up their \$3.4B to cover restitution and damages. We have basically the same issues to work through, with a little added complexity due to the involvement of BBDFTE locally here. I've spent a little over a year, with absolutely no progress on the issues. We do have a docket, so that is some progress, I suppose. I wonder what I could discover in your prosecution files that would be relevant to PHH Mortgage activity? It would probably save us some time and money duplicating effort that we've already done. This time around it will all go to the jury. I've valued the case at \$100B, but qu'ien sabe? Now we also have Chase, Citi, BAC, Wells Fargo to

consider. It would sure speed things up if I could review some of your key material. Should we meet up?

It best be pretty quick, I think they're putting Rick Perry in jail next week, and things are really a kerfluffle. With the election, people are only going to get more distracted. For my little old case details, check out my site at www.phhmortgagemustbedestroyed.weebly.com. I think I'll have 60,000 other members in my class by the time we get discovery done. Everything there will eventually be filed on PACER; for now I just have the complaint on PACER while they work my request through the electronic filing permissions. Everything today is electronic. The world sure is moving fast. Please review the info and let me know how you can help out. I'd sure appreciate it.

Thanks in advance,

Ms. Emerson,

I've filed a qui tam action here in Texas as noted above in behalf of the CFPB out in Iowa against PHH Mortgage, who runs a very similar operation to Ocwen, and also operates in your state. Judge Yeakel is on the bench, with Mark Lane helping get stuff sorted out. I know from browsing through your report that y'all are quite busy with higher priorities at the moment. I have standing down here in Texas due to their wrongful seizure on my own property, and appear to be First Relator. I also had an earlier CFPB complaint in the system out in Iowa.

Your team apparently were phenomenally successful last year in joining with Lucy Morris and working out a consent judgment with the Ocwen company and all 50 State AGs last year. I imagine you spent quite some time in investigation and negotiation for everyone to reach an agreement and put up their \$3.4B to cover restitution and damages. We have basically the same issues to work through, with a little added complexity due to the involvement of BBDFTE locally here and in California. I've spent a little over a year, with absolutely no progress on the issues. We do have a docket, so that is some progress, I suppose. I wonder what I could discover in your prosecution or informational files, in your own state, that would be relevant to PHH Mortgage activity in general? It would probably save us some time and money duplicating effort that we've already done. This time around it will all go to the jury. I've valued

the case at \$100B, but qu'ien sabe? Now we also have Chase, Citi, BAC, Wells Fargo to consider. It would sure speed things up if I could review some of your key material. Should we meet up?

It best be pretty quick, I think they're putting Rick Perry in jail next week, and things are really a kerfluffle. With the election, people are only going to get more distracted. For my little old case details, check out my site at www.phhmortgagemustbedestroyed.weebly.com. I think I'll have 60,000 other members in my class by the time we get discovery done, and some proportion will be residents of your state. I wonder what I could discover in your prosecution or informational files, in your own state,

that would be relevant to PHH Mortgage activity in general? It would probably save us some time and money duplicating effort that we've already done. This time around it will all go to the jury. I've valued the case at \$100B, but qu'ien sabe? Now we also have Chase, Citi, BAC, Wells Fargo to consider. It would sure speed things up if I could review some of your key material. Should we meet up?

It best be pretty quick, I think they're putting Rick Perry in jail next week, and things are really a kerfluffle. With the election, people are only going to get more distracted. For my little old case details, check out my site at www.phhmortgagemustbedestroyed.weebly.com. I think I'll have 60,000 other members in my class by the time we get discovery done, and some proportion will be residents of your state. Everything there will eventually be filed on PACER; for now I just have the complaint on PACER while they work my request through the electronic filing permissions. Everything today is electronic. The world sure is moving fast. Please review the info and let me know how you can help out. I'd sure appreciate it.

Thanks in advance,

Ms. Pascoe,

I've filed a qui tam action here in Texas as noted above in behalf of the CFPB out in Iowa against PHH Mortgage, who runs a very similar operation to Ocwen, and also operates in your state. Judge Yeakel is on the bench, with Mark Lane helping get stuff sorted out. I know from browsing through your report that y'all are quite busy with higher priorities at the moment. I have standing down here in Texas due to their wrongful seizure on my own property, and appear to be First Relator. I also had an earlier CFPB complaint in the system out in Iowa.

Your team apparently were phenomenally successful last year in joining with Lucy Morris and working out a consent judgment with the Ocwen company and all 50 State AGs last year. I imagine you spent quite some time in investigation and negotiation for everyone to reach an agreement and put up their \$3.4B to cover restitution and damages. We have basically the same issues to work through, with a little added complexity due to the involvement of BBDFTE locally here and in California. I've spent a little over a year, with absolutely no progress on the issues. We do have a docket, so that is some progress, I suppose. I wonder what I could discover in your prosecution or informational files, in your own state,

that would be relevant to PHH Mortgage activity in general? It would probably save us some time and money duplicating effort that we've already done. This time around it will all go to the jury. Judge Yeakel is on the bench, with Mark Lane helping get stuff sorted out. I know from browsing through your report that y'all are quite busy with higher priorities at the moment. I have standing down here in Texas due to their wrongful seizure on my own property, and appear to be First Relator. I also had an earlier CFPB complaint in the system out in Iowa.

Your team apparently were phenomenally successful last year in joining with Lucy Morris and working out a consent judgment with the Ocwen company and all 50 State AGs last year. I imagine you spent quite some time in investigation and negotiation for everyone to reach an agreement and put up their \$3.4B to cover restitution and damages. We have basically the same issues to work through, with a little added complexity due to the involvement of BBDFTE locally here and in California. I've spent a little over a year, with absolutely no progress on the issues. We do have a docket, so that is some progress, I suppose. I wonder what I could discover in your prosecution or informational files, in your own state,

that would be relevant to PHH Mortgage activity in general? It would probably save us some time and money duplicating effort that we've already done. This time around it will all go to the jury. I've valued the case at \$100B, but qu'ien sabe? Now we also have Chase, Citi, BAC, Wells Fargo to consider. It would sure speed things up if I could review some of your key material. Should we meet up?

It best be pretty quick, I think they're putting Rick Perry in jail next week, and things are really a kerfluffle. With the election, people are only going to get more distracted. For my little old case details, check out my site at www.phhmortgagemustbedestroyed.weebly.com. I think I'll have 60,000 other members in my class by the time we get discovery done, and some proportion will be residents of your state. Everything there will eventually be filed on PACER; for now I just have the complaint on PACER while they work my request through the electronic filing permissions. Everything today is electronic. The world sure is moving fast. Please review the info and let me know how you can help out. I'd sure appreciate it.

Thanks in advance,

Western Texas District Court 1:14-cv-733-LY

Mr. Burg,

I've filed a qui tam action here in Texas as noted above in behalf of the CFPB out in Iowa against PHH Mortgage, who runs a very similar operation to Ocwen, and also operates in your state. Judge Yeakel is on the bench, with Mark Lane helping get stuff sorted out. I know from browsing through your report that y'all are quite busy with higher priorities at the moment. I have standing down here in Texas due to their wrongful seizure on my own property, and appear to be First Relator. I also had an earlier CFPB complaint in the system out in Iowa.

Your team apparently were phenomenally successful last year in joining with Lucy Morris and working out a consent judgment with the Ocwen company and all 50 State AGs last year. I imagine you spent quite some time in investigation and negotiation for everyone to reach an agreement and put up their \$3.4B to cover restitution and damages. We have basically the same issues to work through, with a little added complexity due to the involvement of BBDFTE locally here and in California. I've spent a little over

a year, with absolutely no progress on the issues. We do have a docket, so that is some progress, I suppose. I wonder what I could discover in your prosecution or informational files, in your own state, that would be relevant to PHH Mortgage activity in general? It would probably save us some time and money duplicating effort that we've already done. This time around it will all go to the jury. I've valued the case at \$100B, but qu'ien sabe? Now we also have Chase, Citi, BAC, Wells Fargo to consider. It would sure speed things up if I could review some of your key material. Should we meet up?

It best be pretty quick, I think they're putting Rick Perry in jail next week, and things are really a kerfluffle. With the election, people are only going to get more distracted. For my little old case details, check out my site at www.phhmortgagemustbedestroyed.weebly.com. I think I'll have 60,000 other members in my class by the time we get discovery done, and some proportion will be residents of your state. Everything there will eventually be filed on PACER; for now I just have the complaint on PACER while they work my request through the electronic filing permissions. Everything today is electronic. The world sure is moving fast. Please review the info and let me know how you can help out. I'd sure appreciate it.

Thanks in advance,
